- 27 Financial Statements

OUR OBJECTIVE

To strengthen our presence in existing markets by giving quality products and solutions to our customers. We intend to introduce new products to meet the changing and expanding market demands.

The change in the market is an opportunity to grow; we intend to penetrate other new markets and fields where our expertise and products are in demand. We are geared to meet new challenges and stay abreast with new technology for further growth and expansion as well as to maintain our strength in our present market.
