

No Bottles

No Plumbing

No Refills

Now you can make *real* pure drinking water from the air!

PA airwater gives you a continuous flow of hot and cold drinking water, replicating the natural evaporation and condensation cycle.

Water quality tested by
TÜV SÜD PSB Pte Ltd

- Free of chemicals, contaminants and bacteria
- No water mains required
- Low power consumption

PA airwater

real pure drinking water!

Product Specifications

Model No:	28L	32L
Voltage:	A.C. 220V / 110V	A.C. 220V / 110V
Frequency:	50Hz / 60Hz	50Hz / 60Hz
Power Rating:	1000 - 1150W	1000 - 1150W
Current:	4.6 - 4.8A	4.6 - 4.8A
Operation Wattage:	450 - 500W	450 - 500W
Heating Wattage:	500 - 600W	500 - 600W
Refrigerant Type: / Mass:	GasR22 / R134a	GasR22 / R134a
Production Capacity:	28L / 24hr 30°C, humidity 80%	32L / 24hr 30°C, humidity 80%
Storage Capacity:	12L	18L
Temperature Range:	15°C - 40°C	15°C - 40°C
Humidity Range:	35% - 95%	35% - 95%
Noise Level:	<60DB	<60DB
Size:	40x40.7x111cm	40x52.5x111cm
Net Weight:	46 kg	50 kg

Available models:
28L and 32L
with electronic tap buttons
